Projections and information in this report regarding potential outcomes are hypothetical and are not intended to reflect actual results nor guarantee future results. Results may be more or less favorable due to uncontrollable future data such as investment returns, inflation rates, tax rates and product expenses.

Please review all of the inputs and assumptions made in this report for accuracy. If you see the need to change these assumptions or have corrections, let me know and the report will be updated.

(2) Some tax deferred and tax-exempt financial vehicles have limits on the amount that can be funded into an account or ages that there are penalties for withdrawing or not withdrawing funds. This report assumes that the same amount that can be added or withdrawn from the IUL policy can be added or withdrawn with the alternatives without penalty and that may not be the case. For the tax deferred account we are assuming the income necessary is equal to the IUL income plus the amount taxed at the marginal tax rate. All taxes shown are assumed to be the marginal tax rates and are merely hypothetical.

Any historical returns from an index is done so excluding dividends. Although we are assuming that other investment vehicles are having returns from an index you are not able to invest in an index.
